Subject: LOCAL MODIFICATION TO P/N DN55000 PARACHUTE

Dear Bruce,

Enclosed photos show a modification incorporated to one DN55000 Parachute, by BW-4 personnel.

The modification consists of a four -inch extension to the non-structural fabric beneath the two vertical lift webs.

This modification was required in order to permit length adjustment of the lift webbing on pilot [redacted]

25X1A

Prior to the modification, the fabric limited the harness length adjustment and put untolerable pressure on Bob's shoulders.

Sincerely,

[redacted] 25X1A

pac
